

Lore of the Land: Our Connection

Listen to each of the Speakers as they share with you their appreciation of the land.

Consider the different ways in which these Australians have formed their connections with the land - through farming, surfing, gardening ...

Look at the titles of each of these video cameos. What do these suggest about the relationships these Australians have formed with the land?

Have you ever felt like these people? Which ones? When? Why?

Where is your favourite place? How did it become special to you?

How do you maintain your connections with that place?

How do you feel when you spend time in that place?

What is it about that place which makes you feel good, positive, peaceful, rested, enriched, alive, energised, free...?

Read *The Landscapes of my life* on the website. Choose the landscapes of your experience.

Reflect upon the attractions it holds for you.
